About the Fun Run

02

To celebrate its 20th Anniversary as a school, NUS Computing is hosting a charity fun run to raise funds for student bursaries and the Movement for the Intellectually Disabled of Singapore (MINDS)--Fernvale Gardens School.

All are invited to join in the fun, whether you're a student, staff member, alum, or from the general public. Challenge 'robots' to win cool prizes, enjoy the entertainment, and catch up with friends and pros. It's also for a worthy cause, so why not?

Give

03

The funds raised through NUS Computing's 20th Anniversary Charity Fun Run will contribute to our student bursaries, and help support the Movement for the Intellectually Disabled of Singapore (MINDS)--Fernvale Gardens School.

School of Computing (SoC) Pay-It-Forward Bursary

The SoC Pay-It-Forward Bursary was established in 2011 by a group of NUS Computing alumni and long-serving faculty members to help support underprivileged NUS Computing undergraduate students in the pursuit of further education.

Movement for the Intellectually Disabled of Singapore (MINDS)

MINDS was founded in 1962 by a group of philanthropists who saw the need to provide equal opportunities for children with intellectual disabilities to receive an education and later, to be integrated as contributing and responsible citizens in Singapore.

Since then, MINDS has grown to become one of the oldest and largest non-governmental organisations catering to the needs of persons with intellectual disability (PWIDs) in Singapore.
